IN EVERY CASE.

Highlights

- Markon First Crop® (MFC) Premium Green Leaf weights are higher on average than the rest of the industry (22 to 26 pounds compared with 20 to 25 pounds).
- Raw product romaine quality is currently inconsistent due to weather conditions across California's Central Coast. After an extended cooling period, coastal temperatures rose into the upper 70s to low 80s, weakening texture and increasing internal burn.
- The Washington apple storage market will continue to inch up until new crop harvesting starts in late August/early September.

FEATURED QUESTION

Q: Tomatoes are at their peak this season. What is your favorite summer preparation?

A: I'm old school all the way. Use the best olive oil, aged balsamic vinegar (best you can afford), fresh chiffonade of basil (experiment with cinnamon or Thai or different basil), and fresh ground salt and pepper. Plate together, that's all you need for a delicious salad or appetizer.

- Toss chopped MFC Grape Tomatoes, sliced MFC Cucumbers, chopped jicama, Ready-Set-Serve® (RSS) Romaine Ribbons, garlic croutons, and buttermilk dressing.
- Mix chopped MFC Roma Tomatoes, fresh garbanzo beans, cooked rotini noodles, and RSS Washed & Trimmed Green Onions; serve on RSS Romaine Fillets with mint vinaigrette.

Tips for Serving Arugula

- Use this versatile leafy green as an herb to give appetizers and soups complexity; great on crostini, in dumplings, quiches, and spring rolls.
- RSS Wild Arugula is no stranger to entrées—use in pesto and pasta dishes, on pizzas, in sandwiches, and on burgers.
- Pair the zesty flavor of arugula with sweeter lettuces like green leaf and romaine or fruits such as apples, pears, and figs. It also pairs quite well with salty hams, toasted nuts, and roasted vegetables such as beets, carrots, and winter squashes.
